ORFE Operations Research & Financial Engineering

Greetings,

The Department of Operations Research and Financial Engineering at Princeton University invites applications for a tenure-track faculty appointment at the Assistant Professor level. We are particularly interested in candidates in the areas of data science, including statistics and machine learning, and decisions under uncertainty. Along with our on-line postings at various societies such as SIAM, AMS, INFORMS, and IMS, we are reaching out to our peer university departments to ask you to post our ad in your department. The ORFE department believes that the diversity of our faculty, staff, and students is essential to the distinction and excellence of our research and academic programs. To that end, we are eager to have a colleague who supports our institutional commitment to ensuring Princeton is inclusive, equitable, and diverse. If you are aware of a potential candidate that fits the job description, please pass the ad along to them directly.

Thank you for your time and efforts.

Kind regards,

Lauren

Lauren Coleman

Assistant to the Chair
