The Adult and Child Center for Health Outcomes Research and Delivery Science (ACCORDS) at the University of Colorado Anschutz Medical Campus, has an opening for a full-time Senior Professional Research Assistant (SrPRA) to work as a data analyst with various research studies associated with ACCORDS in the Biostatistics Core. Responsibilities include writing statistical programs in SAS or R to analyze data, consulting with investigators on the design and implementation of research projects, and supporting the writing of manuscripts from the research projects. Candidate must have a master’s degree (statistics, biostatistics, epidemiology, biometrics, or other quantitative field) and at least three years of SAS or R programming experience. Work experience after training strongly preferred. See entire job posting at the applicant link below.
