Good Evening,

The American Public Health Statistics Section is accepting abstract submissions for student research poster and oral presentation sessions. **Please encourage your students to submit abstracts.** Students wishing to be considered for these sessions should submit online, an abstract and a 2-page summary of their paper. Information for submission of abstracts can be found at [https://apha.confex.com/apha/2020/aphs.htm](https://apha.confex.com/apha/2020/aphs.htm). When submitting your abstract, please submit it under the session “Student oral presentations” or “Student poster presentations”, even if it may be thematically related to other topics on the topic list.

Students interested in competing in the APHS Section student oral paper competition should contact Dr. Haresh Rochani (hrochani@georgiasouthern.edu). Your two-page summary of the paper should be e-mailed to Dr. Haresh Rochani (hrochani@georgiasouthern.edu) with a copy to Dr. Robert Vogel (rvogel@georgiasouthern.edu), along with a letter from a faculty member attesting to the author’s student status. If a student abstract was submitted for oral presentation but is not accepted as an oral presentation, it will automatically be considered as a poster submission. All accepted student abstracts will be considered for the Student Research Competition. An award will be given for the Best Student Oral Presentation. **In order to be eligible for the student competition, you must be a student at the conference in November 2020 (those graduating in May/June 2020 are not eligible).**
