Students Can Join the ASA for Only $25
Encourage students to join today!

Thank you for introducing students to the American Statistical Association throughout the years. We hope you will continue to help by sharing the benefits of ASA membership. We encourage you to forward this message to students, as well.

Ways to Encourage Student Membership:

- Send us a list of your students and we will do the rest.
- Encourage your students to join online, or simply forward this email to them.
- Host a membership social. The ASA will reimburse up to $100 for the cost of refreshments. Let us know in advance, and we will send membership information for your event.
- Take it a step further and sponsor your students.
- Encourage your students to start a student chapter!
We're proud to have a thriving student community, with more than 5,000 student members and 60 student chapters. Students are a valuable part of our association, and they get tremendous value out of ASA membership.

- **Discounts on ASA meetings** throughout the year, including the Joint Statistical Meetings, Conference on Statistical Practice, Women in Statistics and Data Science Conference, Symposium on Data Science and Statistics, and additional regional conferences
- Opportunities to connect online with peers throughout the [ASA Community](#)
- Access to [ASA chapters, sections, and outreach groups](#)
- [Career opportunities and resources](#) such as the ASA JobWeb, accreditation, and the meetings-based Career Service
- [News and research](#) through ASA journals and *Significance* magazine, in addition to *Amstat News*
- [Advocacy](#) for ASA members and statistically sound science policy

Thank you for your support. We hope you have a successful 2018-2019 academic year!
