The fellowship focuses on data science and related expertise such as machine learning, data visualization, and causal inference to meet legislative and policymaking challenges. Fellows serve one year in a federal agency or on the staff of a senator, representative, or congressional committee beginning September 2019. Learn about the executive and legislative processes and lend statistical and scientific expertise to public policy issues. This project is funded by a grant from the Alfred P. Sloan Foundation.

Individuals who are US citizens with a PhD in statistics, data science, mathematics, or a closely related field are encouraged to apply. The ASA seeks candidates reflecting the diversity of our society. Applications are due by January 15, 2019, and require a cover letter, biographical sketch, and three letters of reference.

Apply by January 15, 2019 at www.amstat.org/fellowshipsgrants!
