The Center for Child and Community Health Research is growing its Biostatistics, Epidemiology and Data Management (BEAD) Core. The CCHR BEAD Core is seeking a Post-doctoral Fellow with the qualifications described below.

Requirements:
- PhD (or anticipated completion by Spring 2014) in Epidemiology, Biostatistics, Psychology, or related social/behavioral field
- Ability to
  - conduct statistical analyses using STATA or SAS
  - develop, organize, and execute complex analyses for faculty investigators
  - work collaboratively on a team with diverse faculty and staff
  - take direction from PI
- Excellent written and verbal communication skills
- Experience assessing project protocols to determine appropriate study design methodology

Preferred qualifications:
- 1+ years of experience writing statistical analytic plans for grants, IRB submissions, and manuscripts
- 3+ years of experience in one or more of the following: public health research, social/behavioral science research, outcomes-related research
- 3+ years of experience in data management and analysis
- experience working with large databases

Responsibilities:
- Perform a broad range of investigative and analytic epidemiologic activities
- Apply principles of public health research to aid faculty investigators in scholarly products (grant submissions, IRB submissions, manuscript preparation, abstract presentations)
- Provide expertise in data management and analytics
- Assist leadership in establishing standards, and support education and training products

Candidates with strong interest in this opportunity are encouraged to submit their CV, statement of research interests, and names of 3 referees to:

Jacky Jennings, Ph.D., MPH  
Associate Professor, Department of Pediatrics  
Director, Center for Child and Community Health Research  
Johns Hopkins School of Medicine  
jjennin1@jhmi.edu.

We offer a comprehensive salary program and excellent benefits.
