ATTENTION RESEARCH ANALYSTS, AN EXCITING AND FULFILLING CAREER AWAITS YOU!

Imagine joining our research team where the norm is lively, thought-provoking collaboration. We each have an insatiable curiosity to explore new questions and untapped data. At the same time, our team embraces a culture of cooperation, excellence, and camaraderie.

We are seeking Research Analysts who enjoy opportunities to learn new subject matter, conceptualizing challenging problems, and diving into and analyzing data. We are also looking for someone who values crafting a story to effectively explain results.

Our division is called the Division of Outcomes Measurement (DOM), and we are located within Centers for Medicare & Medicaid Services (CMS). We use data to critically evaluate actions intended to combat fraud, waste, and abuse. Our goal is to inform policy and make recommendations for program improvement.

If this sounds like the right career for you, please visit https://www.usajobs.gov/GetJob/ViewDetails/522443100 for additional information, including specific position requirements and the process for applying. Note that the official USAJOBS posting title is Statistician (Health), but you don’t have to be an advanced statistician or specialize in healthcare research to apply.

In order to be considered, you MUST apply by following the instructions found in the vacancy announcement no later than 11:59pm (Eastern Time) on 02/07/2019.

Please note:

Most of HHS’s Operating Divisions were funded through FY 2019 by the Labor, Health and Human Services, and Education appropriation (which represents 60% of HHS staff overall). Centers for Medicare & Medicaid Services (CMS) is among those Operating Divisions that received funding. Thus, CMS is unaffected by the current government shutdown.
