The Vaccine and Infectious Disease Division (VIDD) and Public Health Sciences Division (PHS) at the Fred Hutchinson Cancer Research Center (Fred Hutch) jointly invite applications from exceptional candidates to apply for a full-time faculty appointment at the assistant or associate member level (equivalent to assistant/associate professor at a university) to conduct collaborative clinical trial research in prevention of HIV, cancer and/or other infectious diseases. The successful candidate will build an independent research program in methodological and applied biostatistics. Opportunities exist for joint and/or affiliate appointments in the Fred Hutch Divisions of Clinical Research, Human Biology and Basic Sciences, as well as the University of Washington, depending on mutual interest.

The successful candidate will establish a dynamic research program consisting of independent projects and collaborative studies that are pertinent to our mission to prevent HIV, cancer and/or other infectious diseases. We seek candidates with outstanding methodological, analytic and communication skills whose objective is to innovate and become leaders within the field.

Candidates must hold a PhD or equivalent degree in biostatistics, statistics, or a related area. Experience in clinical trials is preferred, especially experience in infectious disease or cancer prevention trials. The successful candidate will have demonstrated the ability to work in a highly collaborative environment with biostatistical, clinical and laboratory scientists.

The Fred Hutch offers a vibrant intellectual environment within a beautiful lakeside campus in Seattle’s South Lake Union biotech hub. The Fred Hutch campus contains five major research buildings along with the Seattle Cancer Care Alliance and is in close proximity to major research partners such as the University of Washington School of Medicine and School of Public Health, Seattle Children’s Research Institute and the Center for Infectious Disease Research.

Interested candidates should submit a CV, a concise research plan statement, a diversity, inclusion, and mentoring statement, and the names and contact information for three (3) references to apply.interfolio.com/53076.

Applications should be received by October 31, 2018 to assure consideration. Later applications may also be considered if the position has not been filled.

Fred Hutchinson Cancer Research Center is committed to cultivating a workplace in which diverse perspectives and experiences are welcomed and respected. We are proud to be an Equal Opportunity and VEVRAA Employer. We do not discriminate on the basis of race, color, religion, creed, ancestry, national origin, sex, age, disability, marital or veteran status, sexual orientation, gender identity, political ideology, or membership in any other legally protected class. We are an Affirmative Action employer. We encourage individuals with diverse backgrounds to apply and desire priority referrals of protected veterans. If due to a disability you need assistance/and or a reasonable accommodation during the application or recruiting process, please send a request to our Employee Services Center at escmail@fredhutch.org or by calling 206-667-4700.
