Assistant/Associate Faculty Position - Biostatistics

Fred Hutchinson Cancer Research Center: Public Health Sciences Division

The Biostatistics program at the Fred Hutchinson Cancer Research Center in Seattle, Washington is recruiting a full-time faculty member at the Assistant or Associate Member level (corresponding to Assistant or Associate Professor). There are strong collaborative ties between the Fred Hutch and University of Washington and an affiliate appointment in a relevant department at the University of Washington may be possible.

The successful candidate will establish a dynamic research program consisting of independent projects and collaborative studies pertinent to the mission of the Fred Hutchinson Cancer Research Center. We seek candidates with outstanding methodologic and analytic skills whose objective is to innovate and become leaders within their field. We will consider applicants specializing in any relevant quantitative area but individuals with expertise in the methodologic areas of data mining, mobile health, and image analysis are particularly encouraged to apply. Applicants should have a doctoral degree in statistics, biostatistics, data science, or an equivalent qualification.

The mission of the Fred Hutchinson Cancer Research Center is the elimination of cancer and related diseases as causes of human suffering and death. The Fred Hutch conducts research of the highest standards to improve prevention and treatment of cancer and related diseases.

The Biostatistics Program at the Fred Hutch is located within the Division of Public Health Sciences, an interdisciplinary research collaborative consisting of statisticians, epidemiologists, health economists, behavioral scientists, computational biologists, and clinical and basic scientists. The Division of Public Health Sciences, in conjunction with the Fred Hutch's Clinical, Basic Sciences, Human Biology and Vaccine and Infectious Disease Divisions, provides many opportunities for collaboration across the spectrum of disease etiology, prevention and treatment.

At Fred Hutch, we believe that the innovation, collaboration, and rigor that result from diversity and inclusion are critical to our mission of eliminating cancer and related diseases. We seek faculty members who bring new ways of seeing the world and solving problems. Fred Hutch is committed to ensuring that all candidates hired for faculty appointments share our commitment to diversity and inclusion.

Application Instructions

Interested individuals should submit a cover letter, a research statement, a complete CV, three references, and a diversity statement [describing your past contributions to diversity, equity, and inclusion and your future plans for continuing these efforts as a faculty member (one page or less)] to our website (http://apply.interfolio.com/71290).
Review of applications will begin immediately and continue until the position is filled. Applications should be received by 12/15 to assure consideration. Later applications may be considered if the position is not yet filled.

**Equal Employment Opportunity Statement**

*Fred Hutchinson Cancer Research Center is committed to cultivating a workplace in which diverse perspectives and experiences are welcomed and respected. We are proud to be an Equal Opportunity and VEVRAA Employer. We do not discriminate on the basis of race, color, religion, creed, ancestry, national origin, sex, age, disability, marital or veteran status, sexual orientation, gender identity, political ideology, or membership in any other legally protected class. We are an Affirmative Action employer. We encourage individuals with diverse backgrounds to apply and desire priority referrals of protected veterans. If due to a disability you need assistance/and or a reasonable accommodation during the application or recruiting process, please send a request to our Employee Services Center at escmail@fredhutch.org or by calling 206-667-4700.*
