The Department of Biostatistics and Epidemiology in the Medical College of Georgia at the Georgia Regents University (GRU) invites applications for a tenure track faculty position at the Assistant or Associate level.

Applicants must have a Ph.D. in biostatistics or a closely related field. Experience and demonstrated interest in cancer research, clinical trials, computational biology, genomics, public health or statistical bioinformatics is highly desirable. Interest and ability in active collaboration with other investigators in biomedical and public health research within and outside of GRU will be an important factor in the selection of candidates, as will doctoral teaching and mentoring experience. Candidates must have a nationally recognized record of innovative and leading-edge methodological research, genuine interest in interdisciplinary collaborations in translational research, successful track record of extramural funding support, strong ability and interest in teaching and mentoring students, and demonstrated leadership potential.

The Department of Biostatistics and Epidemiology at GRU offers pre- and post-doctoral training programs in Biostatistics, and a Masters and a Certificate program in Clinical and Translational Science. Immediate future plans include developing graduate programs in Epidemiology. The new faculty members will join a highly interdisciplinary faculty and will play an integral role in the ongoing expansion of research and education at GRU. The academic departments, and centers and institutes such as the Cancer Center, Center for Biotechnology and Genomic Medicine, the Georgia Prevention Institute, the Institute of Public and Preventive Health and the Sickle Cell Center provide rich opportunities for interdisciplinary research.

Interested applications should send curriculum vitae, a brief statement of current and planned research, and names and contact information of at least three references to
