Gavi, the Vaccine Alliance is a public-private partnership, headquartered in Geneva, committed to saving children’s lives and protecting people’s health by increasing equitable use of vaccines in lower-income countries. The Vaccine Alliance brings together developing country and donor governments, the World Health Organization, UNICEF, the World Bank, the vaccine industry, technical agencies, civil society, the Bill & Melinda Gates Foundation and other private sector partners. Gavi uses innovative finance mechanisms, including co-financing by recipient countries, to secure sustainable funding and adequate supply of quality vaccines. Since 2000, Gavi has contributed to the immunisation of nearly 640 million children and the prevention of more than 9 million future deaths.

KEY RESULTS EXPECTED

- Contribution towards a revised investment data mapping;
- Contribution towards literature reviews on key topics of interest;
- Contribution towards producing communication materials (such as website, slide decks that help package key messages, etc.);
- Exposure to and enhanced knowledge of M&E of public health grants.

MAIN DUTIES/RESPONSIBILITIES

- Contribute to the updating of the data investment mapping. This tool tracks Gavi investments in health information system strengthening;
- In collaboration with the Senior Programme Manager, conduct literature reviews on key topics of interest such as (but not limited to) equity measurement and monitoring, population estimates, etc.;
- Support the update of communication materials – digital and non-digital – on routine monitoring of Gavi grants;
- Assist the analyst in any tasks relevant to the analysis of grant monitoring data.

Note: The essential functions listed in this section are not exhaustive of the job responsibilities; other duties may be assigned consistently with the team needs.

QUALIFICATIONS

Academic:
- Bachelors or Masters degrees (or candidate for) public health, statistics or other relevant fields.
Skills/Competencies:
- Two years of experience in conducting literature reviews;
- Ability to synthesise information and present/package it in a simple, coherent fashion;
- One to two years of experience in M&E public health programmes is a plus; at minimum, exposure to M&E of public health programmes is required;
- Analytical skills is a bonus.

Languages:
- Excellent written and spoken English language skills;
- Knowledge of French and/or Spanish is an asset.
