

CAREER OPPORTUNITY:

BIostatistician

*"Advancing
Knowledge to
Improve Health"*

The Kaiser Permanente Center for Health Research (CHR) in Portland, Oregon, seeks a biostatistician to support our research program. This individual will:

- Work with CHR investigators, a diverse group of researchers with a common passion for improving health through science
- Share their statistical expertise on research projects, assist in the development of complex statistical analyses, develop analysis plans, and interpret results
- Prepare manuscripts reporting research results
- Contribute to the translation of research into practice
- Lead and assist Research Analyst Teams in creating and maintaining study datasets
- Present seminars on statistical techniques

Select Qualifications

A doctoral degree in statistics, biostatistics, economics, or a related quantitative field, with a minimum of 3 years of relevant research experience, is preferred. Other qualifications include knowledge of quantitative biostatistical methods, a standard statistical software library and design of relational databases, health maintenance organization policy, practice, and management.

CHR History & Research

The Center for Health Research (CHR) is affiliated with Kaiser Permanente Northwest (KPNW), a highly successful medical and dental health plan with more than 600,000 members in Oregon and Washington. Access to KPNW members affords CHR investigators unparalleled opportunities for research.

CHR was founded in 1964 and employs 250 people, 40 of them investigators. Currently, 200 studies are underway, spanning areas such as health services, public health, behavioral health, obesity and weight loss, mental health, maternal health, cost-effectiveness, cancer screening, and genetics and genomics.

Why Join Us?

- CHR is a respected, cutting-edge research center whose researchers attract nearly \$50 million in funding each year.
- CHR's numerous research partnerships support local and national collaboration.
- The Center for Health Research is affiliated with Kaiser Permanente Northwest, one of eight regions providing health care services to more than 12 million people nationwide.
- Portland, Oregon, is well known for its sophisticated offerings in a casual setting – dining, craft beer and wine, music and art – and easy access to mountains and the Pacific coast.

Revolutionizing Care

At Kaiser Permanente, we are relentless in our pursuit of excellence. Driven by our mission to provide the highest-quality care, we are committed to eliminating health disparities, and to making lives better through innovation, technology, and research.

Our desire to deliver the best possible care inspires us to promote wellness among our members, communities, and each other. It also fuels our belief that everyone—regardless of circumstance—deserves access to affordable care, which further drives our motivation to expand our reach.

Kaiser Permanente: An Employer of Choice

- A Certified 2018 "Great Place to Work"
- No. 1 "Best Place to Work in Health Care," *Indeed*
- "Best Employer for Healthy Lifestyles," *National Business Group on Health*
- No. 2 "Top 50 Companies for Diversity" and "Top 10 Companies for People with Disabilities," *DiversityInc*
- "Leader in LGBT Healthcare Equality" and *Perfect Score on 2018 Corporate Equality Index, Human Rights Campaign*
