Memorial Sloan-Kettering Cancer Center

Post-Doctoral Fellowships
Biostatistics

We are seeking candidates who aspire to pursue careers in academic research for positions as postdoctoral fellows. Applicants should hold a doctoral degree in biostatistics, statistics, bioinformatics, or a related computational field. Each successful applicant will be embedded in a research team and will engage in cutting-edge research focused on contemporary investigative challenges that involve strong quantitative skills. On-going projects include diverse areas of investigation including NGS sequencing data analyses of whole-exomes and whole-genomes, research into novel clinical trials designs, innovative methods in cancer epidemiologic research, and others. Successful candidates will have solid methodological training in statistics, be comfortable working with large data sets, and be proficient in statistical programming.

To apply, send a cover letter, cv, and the names of 3 references to:
Samantha Vasquez (vasques2@mskcc.org)
Enquiries can be directed to Colin Begg (Department Chair) (beggc@mskcc.org): Department of Epidemiology and Biostatistics, Memorial Sloan Kettering Cancer Center, 485 Lexington Avenue, New York, NY 10017.

MSK is an equal opportunity and affirmative action employer committed to diversity and inclusion in all aspects of recruiting and employment. All qualified individuals are encouraged to apply and will receive consideration without regard to race, color, gender, gender identity or expression, sexual orientation, national origin, age, religion, creed, disability, veteran status or any other factor which cannot lawfully be used as a basis for an employment decision. Federal law requires employers to provide reasonable accommodation to qualified individuals with disabilities. Please tell us if you require a reasonable accommodation to apply for a job or to perform your job. Examples of reasonable accommodation include making a change to the application process or work procedures, providing documents in an alternate format, using a sign language interpreter, or using specialized equipment.
