SAMSI postdoctoral positions

The Statistical and Applied Mathematical Sciences Institute (SAMSI) is soliciting applications from statistical, mathematical and computational scientists for up to 6 postdoctoral positions for the SAMSI research programs in 2019-2020. The three programs are: (1) Games, Decisions, Risk and Reliability, (2) Deep Learning, and (3) Causal Inference. Appointments will begin in August, 2019 and typically run for two years, although they can also be arranged for a single year. Appointments are made jointly between SAMSI and one of its partner universities (Duke University, North Carolina State University, and the University of North Carolina Chapel Hill). Teaching opportunities may be available. The positions offer extremely competitive salaries, a travel stipend, and health insurance benefits.

Criteria for selection of SAMSI Postdoctoral Fellows include demonstrated research ability in statistics, applied mathematics, and/or computational science, excellent computing skills, and the ability to communicate both orally and in writing. Also, the preferred applicant will have a strong interest in one or more of the research programs scheduled for 2019-2020. The deadline for full consideration is December 15, 2018, although later applications will be considered as resources permit.

Please specify which SAMSI programs you are applying for in your cover letter and why you believe you would be a good fit for those programs.
