

Dear Department Chairs and Directors of Graduate Studies,

We think your graduate students will be interested the following sessions to be held just before the Joint Mathematics Meetings in San Francisco in January 2010:

Tutorial on Modeling: An Introduction to Numerical and Statistical Modeling

Chi-Wang Shu, Brown University and Wei Zhu, SUNY Stony Brook

Monday, January 11 and Tuesday, January 12, 2010, 9 a.m. - 4:30 p.m.
Room 2006, 2nd Floor, Moscone Center West

This tutorial will be an introduction to both numerical and statistical modeling for those who are not currently studying computational science. It is especially designed for individuals who are considering non-academic employment.

The tutorial will be divided into two sessions. During the session on Monday, January 11, Professor Chi-Wang Shu of the Division of Applied Mathematics, Brown University, will present an introduction to numerical modeling. During the session on Tuesday, January 12, Professor Wei Zhu, Department of Applied Mathematics and Statistics, State University of New York at Stony Brook, will give an introduction to statistical modeling. More information on the individual presentations can be found at http://www.ams.org/amsmtgs/2124_tutorial.html.

The fee for this two-day tutorial is US\$25. It is not necessary to register for the Joint Mathematics Meetings (JMM) in order to participate in the tutorial. Please register using the online registration form found at <https://www.ams.org/meetreg?meetnum=2124>.

If you have additional questions or concerns about the tutorial, please contact Ellen Maycock at 1-800-321-4267, Ext. 4101 or ejm@ams.org.
