UAB is seeking a Post-Doctoral Fellow or Scientist with strong statistical and collaborative skills to join us in the Office of Energetics (http://www.soph.uab.edu/energetics/home).

- **Job Title:** Post-Doc or Scientist I.
- **US Citizenship is NOT required.**
- **Terms:** This is a full-time position with salary and benefits.
- **Tasks:**
  - Applied statistical analyses in obesity-related research ranging from basic science (animal studies), to clinical trials, meta-analyses, and epidemiology.
  - Statistical and power analysis sections of grant proposals.
  - Coaching other post-docs and investigators on statistical matters.
  - Methodologic work.
- **Reporting to:** David B. Allison, PhD
- **Duration of Appointment:** Two to three years as post-doc or renewable as Scientist I for additional years indefinitely by mutual agreement.
- **Start Date:** As soon as possible.
- **Qualifications:**
  - **Degree:** Ideally a PhD in Biostatistics or Statistics, but would be willing to consider someone with very strong statistical skills from another discipline (e.g., economics, epidemiology, sociology, psychology, mathematics, engineering, etc.)
  - **Communication skills:** Excellent written and spoken communication skills essential.
  - **Social skills:** Good collaborative skills and ability to work well with a variety of scientists from different educational and demographic backgrounds essential.
