The Department of Statistics at UC Davis invites applications for a tenured/tenure-track open rank faculty position from qualified individuals with a Ph.D. in Statistics or a related field. Applicants are expected to have research interests in statistical methodology, theory or computing for problems involving large/massive and complex data (including the fields of statistical data mining and data reduction techniques, the analysis of networks and other object data, and statistical learning). Candidates with demonstrated interest in scientific applications in the areas of genomics, bioinformatics, computational biology or imaging, such as neuroimaging and biomedical imaging, are especially encouraged to apply, but all fields of applications will be considered.

The successful candidate will be expected to teach at both the undergraduate and graduate levels. The position will begin 07/01/2014.

UC Davis offers a broad range of opportunities for collaborations involving large and complex data, including a Medical School, a Veterinary School, a Neuroimaging Center, and programs in Atmospheric Sciences, Cosmology, Genetics/Bioinformatics, Neuroscience, Computer Science, Geology and Psychology. The Department hosts graduate programs in Statistics and in Biostatistics (for further information see [http://www.stat.ucdavis.edu](http://www.stat.ucdavis.edu)).

UC Davis is an affirmative action/equal employment opportunity employer and is dedicated to recruiting a diverse faculty community. We welcome all qualified applicants to apply, including women, minorities, individuals with disabilities and veterans.
