

The Department of Statistics and Applied Probability at the University of California, Santa Barbara invites applications for two faculty positions in the area of Data Science, one Assistant Tenure Track and one Open Rank, with an anticipated start date of July 1, 2020.

For the Assistant Tenure Track position, we are looking for individuals with a strong research agenda in computational statistics, computational probability, and data science.

For full details and to submit an application, please visit recruit.ap.ucsb.edu/apply/JPF1606A

For the Open Rank position, we are looking for individuals with a strong research agenda in Statistics with emphasis on Data Science, and demonstrated research and teaching excellence. Ideal candidates will have a record of collaborative research and potential to play a leadership role in developing data science programs at UCSB.

For full details and to submit an application, please visit recruit.ap.ucsb.edu/apply/JPF1635A

To be considered in both pools, please submit applications to both positions.

Responsibilities of faculty members generally include the development of an actively funded research program of the highest quality, teaching at undergraduate and/or graduate levels, recruitment, supervision, and mentorship of graduate students, and participation in university service and professional activities. Applicants must have a PhD (or equivalent) in Statistics, Biostatistics, Applied Probability, Mathematics, Computer Science, Data Science or related areas at the time of application. A demonstrated record of excellence in research, and a record of (or potential for) excellent teaching are desired. Successful candidates will have a record of collaborative research, and will be able to leverage synergies within the Department and Division. The University is especially interested in candidates who can contribute to the diversity and excellence of the academic community through research, teaching and service as appropriate to the position.

Applications received by November 22, 2019 will be given priority consideration, but both positions will remain open until filled.

The University of California is an Equal Opportunity/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability status, protected veteran status, or any other characteristic protected by law.

The Department of Statistics and Applied Probability at UC Santa Barbara is searching for qualified candidates for visiting faculty positions in the Department of Statistics and Applied Probability for the 2020-21 academic year (with the possibility of 2 years renewal for a potential total of up to three years).

The Department comprises 17 permanent faculty members, as well as more than ten visitors and postdocs. Our vibrant research atmosphere is driven by interdisciplinary research groups in Data Science, Biostatistics, Environmental Statistics, and Financial and Actuarial Mathematics (cfmar.pstat.ucsb.edu).

A full year Visiting Assistant Professor appointment carries a teaching load of 5 one-quarter courses per year. Departmental teaching includes upper-division undergraduate courses in statistics, probability, regression, time-series, statistical computing, stochastic processes, and mathematical finance. Candidates whose research and teaching interests are in Data Science, Biostatistics, Financial Mathematics or Actuarial Science are particularly encouraged to apply.

Applicants must have completed all requirements for a PhD (or equivalent) except the dissertation, in Statistics, Applied Probability, Actuarial Sciences, Financial Mathematics or a related discipline, at the time of application and should have completed their PhD (or equivalent) by the time of appointment. Successful applicants will demonstrate or show strong promise for undergraduate teaching, collaborative research and synergies with UCSB Statistics and Applied Probability faculty.

Interested candidates should apply electronically by submitting CV, a statement of current and planned research, a teaching statement, and have three letters of reference sent via UC Recruit (at least one letter should describe teaching accomplishments).

Diversity, equity, and inclusion are core values at UC Santa Barbara. Our excellence can only be fully realized by faculty, students, and staff who share our commitment to these values. The department encourages all applicants to submit a Statement of Contributions to Diversity addressing past and/or potential contributions to diversity through research, teaching, and service.

Materials should be electronically submitted via UC Recruit: recruit.ap.ucsb.edu/apply/JPF01588

Review will begin on November 15, 2019 and continue until positions are filled.

The Department is especially interested in candidates who can contribute to the diversity and excellence of the academic community through research, teaching, and service as appropriate to the position
