Applications are invited for a tenure-track assistant professor position in Actuarial Science at The University of Iowa starting August 2014. Applicants must show promise of excellence in scholarly research and teaching, as well as interest in research collaboration. They must have completed a PhD in a relevant field by August 20, 2014. A Fellowship or Associateship in a professional actuarial society is highly preferred, although candidates very close to attaining an Associateship may be considered. Industrial experience is beneficial. The appointee is expected to teach and conduct research in actuarial science, financial mathematics, and/or quantitative risk management, and to supervise PhD students.

The Department and the College of Liberal Arts and Sciences are strongly committed to gender and ethnic diversity; the strategic plans of the University and College reflect this commitment. Women and minorities are encouraged to apply. The University of Iowa is an equal opportunity/affirmative action employer.

Applicants must have completed a Ph.D. prior to August 20, 2014, and must be free to assume the duties of this position on that date.

Candidates should submit applications online at http://jobs.uiowa.edu/. To assure consideration, all application materials must be received by December 31, 2013. However, screening of applications will continue until the position is filled. Attachments to the application must include the letter of interest, curriculum vitae, names and contact information of references, statement on research, statement on teaching, Ph.D. thesis abstract, publications, manuscripts in progress and graduate transcripts. Refer to requisition number 63222.

Please arrange to have three letters of reference, including a letter from the academic advisor, sent to:
