UNIVERSITY OF MARYLAND SCHOOL OF PHARMACY, Baltimore, MD
Postdoctoral fellowships in Patient-Centered Outcomes Research (PCOR), Pharmaceutical
Health Services Research, and Health Disparities

Postdoctoral fellowships are available starting January or July, 2014 within University of
Maryland’s Pharmaceutical Health Services Research Department. The fellowship provides
multidisciplinary, advanced training to health services researchers and clinicians. Fellows
engage in comparative effectiveness research (CER) and PCOR activities funded by AHRQ,
NIH, other federal and State of Maryland government agencies, PCORI, foundations, and private
corporations. Training involves mentored research experiences with faculty and may include
coursework in CER, pharmacoconomics, and health services research. Strong qualitative and/or
quantitative skills are required and experience with community-based participatory research
(CBPR) is desirable. Fellows may also gain teaching experience. The fellowship prepares
fellows for positions in academia, government, the pharmaceutical or insurance industries, and
consulting. Fellows receive a competitive salary and benefits. Review of applications will start
immediately and continue through December for January or July start dates. Finalist interviews
will take place onsite in Baltimore following screening interviews. Applicants should submit a
letter of intent, curriculum vita, writing sample, and three letters of recommendation. University
of Maryland is an equal opportunity employer. CONTACT: PCOR Postdoctoral Fellowships c/o
