Tenure Track Position in Statistics

Curriculum
- Provide educational experiences that extend beyond traditional boundaries
- Enhance our dynamic and innovative curriculum for students majoring in statistics and/or data science
- Provide the best possible learning experience for introductory students

Success
- Maintain a positive learning environment that ensures the success of all students
- Ensure students acquire the skill-set necessary for immediate employment
- Maintain our long-standing success of placing students in top-tier graduate programs

Tenure
- Requires a strong desire to become an effective educator by providing a supportive, collaborative, and diverse learning culture
- Allows one to demonstrate their professional growth through individualized pathways

Community
- Winona community provides a variety of employment opportunities for significant others, a proven educational system for children, and a safe and secure local economy
- A strong presence of the arts exists within our community

Primary duties are to teach a wide variety of undergraduate statistics courses using an innovative and modern curriculum. These duties may include the teaching of master’s or doctorate level service courses. Secondary duties include: collaboratively supporting the Statistical Consulting Center by providing expertise to university and non-university clients, actively maintaining a record of scholarship, and eagerly participating in program, departmental, and university-wide service related activities.

Apply Today!
Ph.D. in Statistics or Biostatistics with an anticipated completion date by August 2014
Provide evidence of: 1) excellence in teaching and 2) strong communication skills
