Lecturer in Statistics, The Amherst College Department of Mathematics

The Amherst College Department of Mathematics invites applications for a position as a Lecturer in Statistics, with an appointment to begin in July 2014. This is a full-time three-year appointment, with multi-year renewal contingent on successful review. Renewal is based on teaching and the other responsibilities of the lecturer, as outlined below. Amherst College is an equal opportunity employer and encourages women, persons of color, and persons with disabilities to apply. The College is committed to enriching its educational experience and its culture through the diversity of its faculty, administration, and staff. We seek candidates who are passionate about teaching statistics to undergraduates. Responsibilities include teaching five courses per year, coordinating introductory courses, and engagement with the growing statistics program at the College. The successful candidate will be expected to make significant and balanced contributions to undergraduate instruction in statistics, including curriculum enhancements. Applicants should hold a doctorate degree in statistics or biostatistics (or related field), and have broad intellectual interests in statistics education along with demonstrated excellence in teaching. Please submit a cover letter, curriculum vitae, teaching statement, and at least three letters of recommendation that specifically address teaching. Completed applications should be submitted to http://www.mathjobs.org/jobs. Alternatively, materials may be mailed to Statistics Search Committee, Department of Mathematics, Amherst College, Amherst, MA 01002-5000. Applications will be accepted until the position is filled, but all applications received by January 15 will be guaranteed full consideration. For more information, visit https://www.amherst.edu/academiclife/dean_faculty/faculty_hiring/employment.

Amherst College is a private undergraduate liberal arts college for men and women, with 1,800 students and more than 200 faculty members. Located in the Connecticut River Valley of western Massachusetts, Amherst participates with Hampshire, Mount Holyoke, and Smith Colleges and the University of Massachusetts in the Five College Consortium. The Five College Statistics Program (established in 2011) actively fosters connections among the many statisticians in the area.
