Bayer is a global enterprise with core competencies in the fields of health care, agriculture and high-tech polymer materials. As an innovation company, it sets trends in research-intensive areas. Bayer’s products and services are designed to benefit people and improve their quality of life. Bayer HealthCare (BHC), an Equal Opportunity Employer, makes an important contribution to human and animal health with its innovative products and by researching new therapeutic approaches promoting science for a better life throughout everything that we do. Our Divisions include Specialty Pharmaceuticals, Medical Care, Consumer Care and Animal Health. At Bayer you have the opportunity to be part of a culture where we value the passion of our employees to innovate and give them the power to change.

Clinical Statistics Internship

YOUR TASKS AND RESPONSIBILITIES
As an intern within the Clinical Statistics US department, the incumbent will gain a direct view into research and development at Bayer and witness how clinical trials influence the decisions that are made during the drug development process. The selected individual will have the opportunity to work with senior biostatisticians in a fast-paced environment and become involved in the analyses of clinical trial data, programming, and providing support to highly-knowledgeable Trial Statisticians and Project Statisticians. Candidates must be available for a 3-month assignment at Bayer’s Whippany New Jersey site beginning in June 2015 and ending in August 2015.

WHO YOU ARE
Successful candidate must be a high performer with a global perspective, interested in the interactions between science and policy, wanting to work with dynamic people and contribute to a changing environment.

Advanced degree (Masters/PhD) in biostatistics or related field. Good oral and written communication skills. Ability to display poise and confidence and to project professionalism in interacting with internal and external stakeholders.

Students are eligible to apply if they meet the criteria required of all interns including being legally entitled to work and earn money in the US. It is the student’s responsibility to obtain the appropriate visa, if applicable. As required by current immigration law, an offer of employment is contingent upon the student’s ability to provide the appropriate documentation showing proof of eligibility to work in the US.

YOUR APPLICATION
Bayer offers a wide variety of competitive compensation and benefits programs. If you meet the requirements of this unique opportunity, and you have the "Passion to Innovate" and the "Power to Change", we encourage you to apply now.

To all recruitment agencies: Bayer does not accept unsolicited third party resumes.
