University of Chicago, Department of Statistics: Assistant Professor (computational and applied mathematics)

Req # 03894

As part of the Computational and Applied Mathematics Initiative at the University of Chicago, the Department of Statistics invites applications from exceptionally qualified candidates for faculty positions at the rank of Assistant Professor. The University of Chicago has recently established an undergraduate major in Computational and Applied Mathematics as well as a new PhD program in Computational and Applied Mathematics. We seek individuals doing advanced research in computational and applied mathematics or in related fields. It is expected that successful applicants will teach in both undergraduate and graduate levels of this program and engage in the direction of doctoral dissertations. Interdisciplinary collaboration is particularly valued. Appointments may be made jointly with another department in the University.

By the time of hire candidates must have completed all requirements for the PhD in some field of mathematics, applied mathematics, statistics, or computational science. Demonstrated research excellence appropriate to the rank is essential; some teaching experience in the mathematical sciences is preferred. Applicants must apply online at the University of Chicago Academic Jobs website at https://tinyurl.com/y8gtlnhp and upload the following required materials: cover letter, CV, and three letters of reference. You may also upload research and teaching statements as well as up to three relevant research publications, but they are not required.

Application screening will begin December 1, 2018, and continue until all positions are filled or the search is closed.

University of Chicago, Department of Statistics: Assistant Professor

Req # 03893

The Department of Statistics at the University of Chicago invites applications from exceptionally qualified candidates for faculty positions at the rank of Assistant Professor. We seek individuals doing advanced research in statistical methodology or theory, in applied statistics or data science, or in related fields. Applicants must have doctorates by the time of start date in statistics or some field of mathematics or science where statistical concepts or methods play an important role. A demonstrated research excellence appropriate to the rank is essential.

Applicants must apply online at the University of Chicago Academic Jobs website at https://tinyurl.com/yb679r78 and upload the following required materials: cover letter, CV, and three letters of reference. A research statement, teaching statement, and up to three relevant research publications may also be included but are not required.

Application screening will begin December 1, 2018, and continue until the position is filled or the search is closed.
