Harvard Medical School, Department of Health Care Policy: Assistant/Associate Professor of Statistics/Biostatistics (Tenure-Track)

The Department of Health Care Policy (HCP) at Harvard Medical School is a multidisciplinary research department with faculty in medicine, health economics, and statistics. HCP seeks a tenure-track assistant or associate professor with a PhD in Statistics/Biostatistics whose research portfolio will combine development of innovative statistical methods and their application to large observational datasets, motivated by health policy and public health questions of national importance. Teaching opportunities include tutorials and individual graduate student advising. Interested individuals should submit a cover letter describing their research interests, a current CV, three recent peer-reviewed articles, and three letters of recommendation. Applicants with postdoctoral training are preferred.

Please apply using the HMS ARleS System: academicpositions.harvard.edu/postings/7004 no later than December 1, 2016.

For further information please contact Sharon-Lise Normand (normand@hcp.med.harvard.edu), or Elizabeth Haak (haak@hcp.med.harvard.edu).
