Marquette University Assistant Professor Position in Computational Science

The Department of Mathematics, Statistics and Computer Science (MSCS) at Marquette University invites applications for a tenure-track Assistant Professor to begin August, 2014. The Department seeks a computational scientist with outstanding mathematical training. Preference will be shown to those with a strong research record in "big data," such as, financial data, genetic data, image data, medical data, etc., that demonstrates the

- potential for establishing an externally funded research program,
- ability to teach at both undergraduate and graduate levels.

The ideal candidate would

- have a Ph.D. in mathematics, statistics, or a related field;
- contribute to our graduate programs, in particular, to our Computational Sciences program;
- seek grant funding to support collaborative, interdisciplinary research;
- contribute to the overall Departmental and University mission, which includes undergraduate education.

Currently, the Department is comprised of 27 full-time faculty in pure and applied mathematics, statistics, computer science, and mathematics education. The Department places emphasis on basic, applied and collaborative research, teaching, and interdisciplinary programs. Our faculty maintain close ties with the Medical College of Wisconsin, Zablocki VA Medical Center, other Milwaukee area hospitals, University of Wisconsin-Milwaukee, and other regional institutions and industrial partners, as well as Marquette's College of Nursing, science and engineering departments. For more information about the Department and its programs see http://www.mscs.mu.edu.

Marquette University, an EOE that values diversity, is a Jesuit, Catholic University with a wide range of undergraduate and graduate programs. We seek candidates who will contribute to its mission, a statement of which can be found at http://www.marquette.edu/about/mission.shtml. Candidates from underrepresented groups are especially encouraged to apply.

All applications for this position must be received through Marquette University's electronic recruiting system, which can be accessed at: http://employment.marquette.edu/postings/2122. Applications will be reviewed beginning November 18, 2013, and the review will continue until the position is filled.
