

The Department of Preventive Medicine at Northwestern University Feinberg School of Medicine seeks highly qualified applicants for a full-time faculty appointment at the rank of Assistant or Associate Professor. Responsibilities include collaborative research, independent statistical research, teaching, and supervision of Master's level statistical analysts. Collaborative research will be conducted within the Quantitative Data Sciences Core, Feinberg School of Medicine's and Robert H. Lurie Comprehensive Cancer Center's core biostatistics/informatics resource for all cancer research in basic, clinical, and population sciences. Responsibilities will include designing studies, specifying and conducting statistical analyses, co-authoring publications, and developing and providing statistical support for grant proposals. Applicants with experience bridging genomics and other high-dimensional omics data in a cancer translational context, including biomarker studies and innovative trial design, both through collaborative research and methodological development are especially encouraged to apply. Teaching responsibilities will be one quarter-long course per year in the Master of Science in Biostatistics or Master of Public Health Program.

Qualified candidates must have a Ph.D. in Biostatistics or Statistics, experience and interest in collaborating with bio-medical investigators, scientific productivity related to biostatistical methodology, excellent communication skills and the ability to work as part of multidisciplinary teams. Academic primary appointment will be in the Division of Biostatistics, Department of Preventive Medicine, Feinberg School of Medicine, Northwestern University. This full-time faculty position carries the title Assistant or Associate and is part of the Team Scientist faculty track. The Department of Preventive Medicine's Division of Biostatistics consists of more than 20 faculty biostatisticians who provide a collegial environment, with a departmental history of mentoring junior faculty biostatisticians. As part of general faculty responsibilities, participation in department meetings as well as departmental, school and university-wide committees is expected. Participation in scientific meetings and scholarly activities to build national reputation are encouraged and expected.

The start date is negotiable and the position will remain open until filled. When applying, please upload a CV and cover letter describing your interest and alignment with the position and any other supporting documentation.

Please read ALL instructions and make preparations before proceeding to the application page:

- Applications will **only** be accepted via online submission.
- Please prepare all documents in advance as Adobe PDF files, and please be sure all information is entered correctly and accurately (especially names and email addresses), as there will be no opportunity for online revision after your application has been submitted.
- Please also prepare a list of names and email addresses for your external academic references; your references will be contacted directly by the online system and invited to upload their letters on your behalf.
- All required fields in the application form are marked with an asterisk and must be filled before clicking the "Submit" button.
- Be aware that incomplete applications cannot be saved.
