YOUR EXPERTISE PLUS
At Sutter Health, our partnerships help us transform care. We are more than 50,000 professionals who are strengthened by compassion, inspired by innovation, and driven to excellence.

The Palo Alto Medical Foundation (PAMF) is part of the Peninsula Coastal Region of Sutter Health, a family of not-for-profit hospitals and physician organizations that share resources and expertise to advance health care quality. PAMF is known for providing world class healthcare services, access to hundreds of medical specialists, advanced electronic health record technologies and the benefits of a coordinated care network with 40+ locations. With over 700,000 patients and countless community members across Alameda, San Mateo, Santa Clara and Santa Cruz counties, we are a dynamic, progressive organization with outstanding growth opportunities. If you’re ready to add your abilities to our broad network of care, come realize your professional potential with Sutter Health.

Statistical Analyst II
Palo Alto, CA
This position will leverage electronic data from one of the largest healthcare networks in Northern California to provide evaluation and impact assessments. The Analyst will sit on the Lean Research Program team at the PAMF Research Institute, which is a team of interdisciplinary research professionals studying healthcare delivery system redesign initiatives. Projects will include a study of healthcare redesign in primary and specialty care, support for nursing research, and other ambulatory and hospital based initiatives. A Master’s degree in Statistics, Biostatistics, Epidemiology, Informatics, Bioinformatics, Data Science, Mathematics, Economics, Health Economics, or related quantitative field, 3+ years’ experience in statistical analysis and programming, 2+ years’ experience querying and analyzing large relational databases and 2+ years’ experience evaluating data quality and interrogating data independently required.
