Applications are invited for a postdoctoral fellowship in biostatistics, with specific emphasis on correlated data (mixed models) with applications in infectious diseases. In particular, the successful candidate will develop novel statistical and mathematical models for infectious diseases to address some challenges in terms of projection and possible interventions due to COVID-19 pandemic. The position will be based at the Department of Community Health Sciences at the University of Manitoba. The successful candidate will work under the supervision of Professor Mahmoud Torabi (home.cc.umanitoba.ca/~torabi/) and Professor Rob Deardon (people.ucalgary.ca/~robert.deardon/).

The position will commence as soon as possible. It is a one year position with possible renewal for second year subject to progress on the research. Feel free to contact Professor Torabi (Mahmoud.Torabi@umanitoba.ca) or Professor Deardon (Robert.Deardon@ucalgary.ca) if you have any enquiries about the position. To apply, send by e-mail (Mahmoud.Torabi@umanitoba.ca) with "Postdoc at UofM" in the subject field of the message: (1) letter of interest, (2) curriculum vitae, and (3) the names and contact information of three references. Screening of applications will begin immediately and will continue until the position is filled. All applicants are thanked in advance; only those selected for further consideration will receive information about the interview process.
