Washington University School of Medicine in St. Louis: Opportunities for Mid-Career and Entry-Level Faculty Positions in the Division of Biostatistics

Washington University School of Medicine in St. Louis is among the world’s premier health research institutions and is committed to advancing human health throughout the world. As noted leaders in patient care, research, and education, our outstanding faculty have contributed many discoveries and innovations to the field of science since the founding of the School of Medicine in 1891.

The Division of Biostatistics at Washington University School of Medicine, in collaboration with the Institute for Clinical and Translational Sciences (ICTS), invites applications for a mid-career and an entry-level faculty opening in Biostatistics. The successful candidates will join a highly multi-disciplinary Biostatistics Division that plays critical roles in several large scale centers and institutes at the forefront of research in clinical and translational sciences, genome sequencing, cancer, and Alzheimer Disease. The Division of Biostatistics faculty conduct cutting edge research in statistical sciences as applied in a range of biomedical and genomic projects including observational studies, clinical trials, and statistical genetics. It also offers a growing graduate training program in biostatistics.

Mid-Career Position (Associate Professor or Professor): The mid-career position offers an excellent opportunity for individuals with leadership capabilities and a commitment to excellence, innovation, and originality combined with the desire to engage in cutting-edge research on statistical methods and their application in health sciences. Candidates with extensive experience in observational studies and clinical trials would be preferred.

Applicants must have a PhD in biostatistics, statistics, or a related field in quantitative sciences; exceptional research and scholarly capacity with a distinguished and nationally recognized record of accomplishments in biostatistics and multi-disciplinary research; track record of leadership roles in supporting and attracting external funding; excellent skills in statistical consulting, communication, and collaborative research; and a passion for teaching and mentoring graduate students. The ideal candidate will have strong leadership characteristics to guide and contribute to the growth and success of the Division and be willing to serve on various academic activities and committees.

Entry-Level Position (Instructor or Assistant Professor): The entry level position represents an excellent opportunity for young and ambitious candidates with a commitment to excellence, innovation, and originality combined with a desire to engage in multi-disciplinary collaborative research with investigators leading cutting-edge research in health sciences. Required qualifications include a PhD in biostatistics, statistics, or a related quantitative field and a commitment to pursuing productive collaborative research. Candidates with training and/or experience in observational studies and clinical trials would be preferred.
We strongly encourage women and underrepresented minorities to apply; Washington University is an equal opportunity/affirmative action employer. Interested candidates are encouraged to apply with a statement of research interests, CV, (transcripts for entry-level position) and three letters of recommendation to: Biostatistics Search Committee, Division of Biostatistics, Washington University School of Medicine, 660 South Euclid, Campus Box 8067, St. Louis, MO 63110-1093. Application materials may also be e-mailed to: biostatisticssearchcommittee@wubios.wustl.edu
