

CURRICULUM VITAE**Martin A. Lindquist****PERSONAL DATA**

Department of Biostatistics
615 N. Wolfe St., E3634
Baltimore, MD 21205

Telephone: (410) 614-5107
Fax: (410) 955-0958
Email: mlindqui@jhsph.edu

EDUCATION AND TRAINING

- 2001 PhD, Department of Statistics, *Rutgers University, New Brunswick, NJ*
GPA: 3.97/4.0
Dissertation: Fast Functional MRI Using Two-Dimensional Prolate Spheroidal Wavefunctions. Advisors: Larry Shepp, PhD. & Cun-Hui Zhang, PhD.
- 1997 MSc., Engineering Physics, *Royal Institute of Technology (KTH); Stockholm, Sweden*
Concentration: Applied Mathematics. Thesis: Non-Homogenous Type II Counter Models for the Release of Neurotransmitters.
- 1996 Department of Mathematics and Statistics, *University of Sydney; Australia*
Master's Thesis Research
- 1990-1992 Department of History and History of Ideas, *Stockholm University; Sweden*

PROFESSIONAL EXPERIENCE

- 2015 - Present Professor. Department of Biostatistics, *Johns Hopkins University, Baltimore, MD*
- 2012 - 2015 Associate Professor. Department of Biostatistics, *Johns Hopkins University, Baltimore, MD*
- 2008 - 2012 Associate Professor. Department of Statistics, *Columbia University, New York, NY*
- 2002 - 2008 Assistant Professor. Department of Statistics, *Columbia University, New York, NY*
- Spring 2002 Visiting Assistant Professor. Department of Mathematics, *University of Minnesota, Minneapolis, MN*. Responsible for two undergraduate mathematics courses.
- 2001-2002 Post-Doctoral Associate. Center for Magnetic Resonance Research, *University of Minnesota, Minneapolis, MN*. Research on statistical problems relating to fMRI.
- 2000-2001 Course Instructor. Department of Statistics, *Rutgers University, New Brunswick, NJ*
Introduction to Computers for Statistics (Fall 2000 & Spring 2001)
- 2000 Visiting Scholar. Department of Statistics, *Stanford University, Palo Alto, CA*

PROFESSIONAL EXPERIENCE (continued)

- 1999-2000 Consultant. Center for NMR Research, *Hershey Medical Center, Hershey, PA*
Developed new algorithms and software for fMRI.
- 1998 Internship. Performance Analysis Department, *Lucent Technologies, Holmdel, NJ*
Developed software reliability model tailored to Lucent system-testing data.
- 1997 Internship. Performance Analysis, *Ericsson Mobile Communications AB, Kista, Sweden*
Automated modem testing procedures.
- 1996 Researcher. Department of Mathematics and Statistics, *University of Sydney, Australia*
Conducted research involving statistical models for the release of neurotransmitters.

PROFESSIONAL ACTIVITIES

Conference Program Committee:

- June 2016 Organization for Human Brain Mapping, *Geneva, Switzerland*
June 2015 Organization for Human Brain Mapping, *Honolulu, HI*
August 2014 Joint Statistical Meetings, *Boston, MA*
March 2014 Eastern North American Region/International Biometric Society, *Baltimore, MD*
October 2009 2nd International Conference on Image and Signal Processing, *Tianjin, China*

Conference Session Chair:

- August 2014 The Graphical Modeling and Longitudinal Analysis of fMRI Data; JSM, *Boston, MA*
August 2013 Advanced Methods in Brain Imaging Research; JSM, *Montreal, Canada*
June 2013 Big Data in Neuroimaging: Big Opportunities or Just a Big Hassle - The Skeptical
Neuroimagers View, Human Brain Mapping, *Seattle, WA*
August 2010 Statistical Learning in Biology; JSM, *Vancouver, Canada*
June 2009 Modeling & Analysis: Neuroinformatics; Human Brain Mapping, *San Francisco, CA*

Journal Referee:

- Journal of the American Statistical Association
- Annals of Applied Statistics
- Journal of the Royal Statistical Society, Series B
- Biometrics
- Biostatistics
- Statistica Sinica
- Statistical Science
- Computational Statistics and Data Analysis
- Statistics in Medicine
- International Journal of Imaging Systems and Technology
- IEEE Transactions on Medical Imaging
- NeuroImage
- NeuroImage: Clinical
- Human Brain Mapping
- Brain Imaging and Behavior
- Social Cognitive and Affective Neuroscience

Journal Referee (continued)

- Journal of Neuroscience Methods
- IEEE Journal of Selected Topics in Signal Processing
- Journal of Magnetic Resonance Imaging
- Journal of Cerebral Blood Flow & Metabolism
- Biological Psychology
- Statistical Analysis and Data Mining
- Frontiers in Neuroscience
- Brain Connectivity
- Current Biology

Book Referee:

- Prentice Hall

Grant Panels:

- NSF/NIH/BMBF - Collaborative Research in Computational Neuroscience (CRCNS)
- NIH NIBIB – Career Development Award

Grant Referee:

- National Science Foundation – Division of Mathematical Sciences
- National Science Foundation – Information & Intelligent Systems (IIS) Division
- National Science Foundation – Cognitive Neuroscience Program
- King Abdullah University of Science and Technology (KAUST) Competitive Research Grants (CRG) program
- W. M. Keck Foundation
- Research Foundation Flanders (FWO)
- Leibniz Association

Professional Memberships:

- American Statistical Association
- Eastern North American Region/International Biometric Society
- Organization for Human Brain Mapping

Other Professional Activities:

- Founding member of the Statistics in Imaging ASA section.
- Program chair of the Statistics in Imaging ASA section 2013-14.
- ENAR Student Paper Committee 2013-2015
- ENAR Regional Advisory Board (RAB) 2014-2016
- OHBM Education Chair-Elect 2014
- CHDI Working Group on Statistical Power

EDITORIAL ACTIVITIES

Editorial Board:

- JASA – Theory and Methods (2011-present)
- Statistica Sinica (2014-present)
- NeuroImage (2009-2012)
- Statistics Surveys (2011-present)
- International Journal of Imaging Systems and Technology (2010- present)
- Frontiers in Human Neuroscience (Review Editor) (2009- present)

HONORS AND AWARDS

Awards

2001	Conference Travel Award <i>Rutgers University; The Graduate School New Brunswick</i>
2000	Travel Stipend for Visiting Scholar position <i>Rutgers University; The Graduate School New Brunswick</i>
1997-1999	Excellence Fellowship for Graduate Studies in Statistics <i>Rutgers University; The Graduate School New Brunswick</i>
1996	Travel Stipend for Study Abroad <i>Royal Institute of Technology (KTH); Stockholm, Sweden</i>

PUBLICATIONS

(* - Student first author mentored by Lindquist)

Journal Articles

Ivor Cribben*, Lauren Atlas, Tor Wager, and Martin Lindquist (2013). “Detecting Functional Connectivity Change Points in fMRI Data”, *Journal of Cognitive Neuroscience*, 202-202.

Schambra H, Xu J, Kim N, Lindquist M, Harran M, Berard J, Branscheidt M, Hertler B, Liuzzi G, Luft A, Krakauer J, and Celnik P. “Neurophysiological signatures of proximal and distal recovery after stroke”, *Society for Neuroscience*, 2013.

Feng Xu, Joseph Gillen, Hongjun Liu, Ann Choe, Hua Jun, Craig Jones, Suresh Joel, Brian Caffo, Martin Lindquist, Ciprian Crainiceanu, Peter van Zijl, and James Pekar, “Bayesian shrinkage as an alternative to spatial smoothing for multi-echo BOLD fMRI”, *Proceedings of the 22nd ISMRM Annual Meeting*, 2014.

Amanda Mejia*, Mary Beth Nebel, Stewart Mostofsky, Brian Caffo, and Martin Lindquist, " Improving Reliability of Subject-Level Resting State Parcellation with Empirical Bayes". *Human Brain Mapping Annual Meeting*, 2014.

Peer -Reviewed Conference Papers/Abstracts (continued)

Ann Choe, Craig Jones, Suresh Joel, John Muschelli, Visar Belegu, John McDonald, Martin Lindquist, Brian Caffo, Peter C.M. van Zijl, and James Pekar. “Trends, seasonality, and persistence of resting-state fMRI over 185 weeks”, *Proceedings of the 23rd ISMRM Annual Meeting*, 2015.

Anita Barber, Ann Choe, Jessica Cohen, Mary-Beth Nebel, Yuting Xu, and Martin Lindquist. “Evaluating the Reproducibility of Dynamic Connectivity in fMRI”, International Symposium on Biomedical Imaging, 2015.

Shaojie Chen, Joshua Vogelstein, Seonjoo Lee, Martin Lindquist, and Brian Caffo. “Investigating functional connectivity using a sparse high dimensional state-space model”. *Human Brain Mapping Annual Meeting*, 2015.

Jaroslav Harezlak, Maria Kudela, and Martin Lindquist. “Model-free estimation of time-varying functional connectivity and its uncertainty in fMRI Studies”. *Human Brain Mapping Annual Meeting*, 2015.

Anita Barber, Christine Ladd-Acosta, Martin Lindquist, etc. “Genetic Variants Associated with Network Connectivity and Behavior”. *Human Brain Mapping Annual Meeting*, 2015.

Choong-Wan Woo, Martin Lindquist, Lauren Atlas, Anjali Krishnan, Marieke Jepma, Mathieu Roy, Leonie Koban, Liane Schmidt, Luka Ruzic, and Tor Wager “Cerebral contributions to pain independent of nociceptive stimulus intensity”. *Human Brain Mapping Annual Meeting*, 2015.

Amanda Mejia*, Ani Eloyan, Mary Beth Nebel, Brian Caffo, and Martin Lindquist. “Robust Leverage-Weighted Principal and Independent Components Analysis”. *Human Brain Mapping Annual Meeting*, 2015.

Jaroslav Harezlak, Maria Kudela, and Martin Lindquist. “Model-free estimation of time-varying functional connectivity with valid confidence intervals from fMRI data”. *Human Brain Mapping Annual Meeting*, 2015.

Kyrana Tsapkini, Tushar Chakravarty, Yenny Webb-Vargas*, Martin Lindquist, Constantine Frangakis and Argye Hillis. “Effects of different language and tDCS interventions in PPA and their neural correlates”. *Academy of Aphasia 53rd Annual Meeting*, 2015.

CURRICULUM VITAE

Martin A. Lindquist

PART II

TEACHING

Classroom Instruction

At Johns Hopkins University:

- PH.140.850.001 – Statistical Methods for fMRI (Course developer)
- PH. 140.682.001 – Principles and Methods of Functional Neuroimaging I (Course developer)
- PH. 140.683.001 – Principles and Methods of Functional Neuroimaging II (Course developer)

At Columbia University:

- W1111 – Introduction to Statistics
- W2110 – Introduction to Applied Statistics (Course developer)
- W2024 – Applied Regression Analysis (Course developer)
- W4105 – Probability
- W4315 – Linear Regression Models
- W4437 – Time Series Analysis
- G6210D - Statistical Consulting
- G6600 - Teaching Statistics at the University Level
- G8335 - Statistical Methods for fMRI (Course developer)

At University of Minnesota:

- Math 3118 – Topics in Elementary Mathematics II

At Rutgers University:

- Statistics 390 - Introductory Computing for Statistics

Coursera (MOOC):

- Principles of fMRI
 - October 2015 – present, > 8,000 students
- The Statistical Analysis of fMRI Data
 - February 2014 – July 2015, > 55,000 students

Workshop & Conference Organization

Workshop on Statistical Methods for fMRI and EEG Data Analysis

- Eastern North American Region/International Biometric Society, Miami, FL, March 15 2015
- Principal Lecturer, with H. Ombao

Workshop on Functional Magnetic Resonance Imaging

- University of Kansas. August 8-12, 2012
- Principal Lecturer, with T. Wager

Workshop on Developing Novel Statistical Methods in NeuroImaging

- University of California San Diego. July 24-26, 2012
- Lecturer, Co-Organizer of conference with 9 speakers and 25 registered attendees.

Workshop & Conference Organization (continued)

Conference on “Imaging, Communications and Finance: Stochastic Modeling of Real-world Problems”

- Columbia University. June 24-25, 2011
- Co-Organizer of conference with 17 speakers and 100 registered attendees.

Workshop on Brain "decoding": Classifying and predicting mental states from brain activity

- Columbia University. September 24, 2010
- Co-Organizer of workshop with 5 speakers and 120 registered attendees.

Workshop on Estimating Effects and Correlations in Neuroimaging Data

- Columbia University. July 15, 2009
- Co-Organizer of workshop with 4 speakers and 150 registered attendees.

Workshop on Time Series Analysis in Neuroscience

- Columbia University. April 14, 2009
- Co-Organizer of workshop with 7 speakers and 60 registered attendees.

Workshop on Functional Magnetic Resonance Imaging

- New York State Psychiatric Institute. June 3-5, 2008
- Principal Lecturer, with T. Wager

Advanced Statistical Methods for Functional MRI

- Merck, Rahway, NJ. November 9-10, 2005
- Organizer and sole lecturer for 2 day course (10 hours)

Reconnect Satellite Conference 2005: *Reconnecting Teaching Faculty to the Mathematical Sciences Enterprise* - The Mathematics of Medical Imaging

- Spelman College, Atlanta, GA. July 17-23, 2005
- Principal Lecturer, with L. Shepp

Statistical Methods for Functional MRI

- Merck, Rahway, NJ. April 18-20, 2005
- Organizer and sole lecturer for 3 day course (15 hours)

Oral and Dissertation Committees

At Johns Hopkins University:

- Amanda Mejia (Principal Advisor)
- Yuting Xu (Principal Advisor)
- Juemin Yang
- Yenny Webb Vargas
- Lei Huang
- Shaojie Chen
- Huitong Qiu
- Tianchen Qian
- Elizabeth Sweeney
- Kyle Rupp (Biomedical Engineering)
- Mike Powell (Biomedical Engineering)
- Doris Leung (Clinical Investigation)

Oral and Dissertation Committees (continued)

At Columbia University:

- Lucy Robinson (Principal advisor, Currently at Drexel University)
- Ivor Cribben (Principal advisor, Currently at University of Alberta)
- Ragnheidur Haraldsdottir
- Hui Wang
- Daqing Zhang
- Philip Reiss (Biostatistics)
- Michael Shnaidman (Committee chair)
- Yu Liang
- Yu Zheng
- Yixin Fang
- Olivier Nimeskern (Committee chair)
- Yi-Hsuan Lee (Committee chair)
- Spiro Pantazatos (Physiology and Cellular Biophysics)
- Lauren Leotti (Psychology)
- Wei Xiong (Biostatistics)
- Shawn Simpson
- Chia-Hui Huang (Committee chair)
- Shouhao Zhou
- Qinghua Li (Committee chair)
- Kamiar Rahnema Rad
- Yongbum Cho
- Michelle Umali (Center for Neurobiology & Behavior)
- Hal Hinkle (Neuroscience)

MPH Capstone Advisor

- Bonnie Wong

RESEARCH GRANT PARTICIPATION

Grants in Progress

NIH –R01 Grant, *Longitudinal Causal Inference for fMRI*, 2013-2017.

Role: Principal Investigator

NIH-R01 Grant, *Statistical Methods for Multilevel Multivariate Functional Studies*, P.I. Crainiceanu, 2012-2017.

Role: Co-investigator

NIH - R01 Grant, *Brain Mechanisms of the Placebo Response & Their Relation to Regulatory Processes*, P.I. Wager, 2013-2018. Role: Subcontract PI

NIH - R01 Grant, *Effects of TDCS on Spoken and Written Production in Primary Progressive Aphasia*, P.I. Tsapkini, 2015 –2020. Role: Co-Investigator

NIH - R01 Grant, *fMRI-based Biomarkers for Multiple Components of Pain*, P.I. Wager, 2013-2018.

Role: Subcontract PI

NIH – R25 Grant, *Big Data Education for the Masses: MOOCs, Modules and Intelligent Tutoring Systems*, P.I. Caffo, 2014-2017. Role: Co-Investigator

NIH – R01 Grant, *Neural Signature of Fear Overgeneralization In Trauma Exposed Adults*, P.I. Neira, 2015-2019. Role: Subcontract PI

NIH – R01 Grant, Novel strategies to enhance motor function after stroke, P.I. Celnik, 2015-2019. Role: Co-Investigator

NIH – R01 Grant, *Development and Translation of D-glucose as a Diagnostic Agent for MRI of Cancer*, P.I. Van Zijl, 2015-2020. Role: Subcontract PI

Grants Completed

Johns Hopkins Brain Science Institute, *The Center for Quantitative Neuroscience: a core for population neuroanalytics and translational systems neuroscience*, 2012-2014.

NIH - R01 Grant, *Brain Circuitry and Psychosocial Predictors of PTSD*, P.I. Lewis, 2010-2015. Role: Co-investigator

NIH - R01 Grant, *Learning to avoid pain: Computational mechanisms and application to methamphetamine abuse*, P.I. Wager, 2009-2014. Role: Co-investigator

National Science Foundation, *Conference on 'Imaging, Communications and Finance: Stochastic Modeling of Real-world Problems'*, 2011. Role: Principle Investigator

NIH - RC1 Grant, *Neuroimaging-based biomarkers for two components of pain*, P.I. Wager, 2009-2010. Role: Co-investigator

NIH - R21 Grant, *Brain pathways in social evaluative threat*, P.I. Wager 2009-2010. Role: Co-investigator

National Science Foundation, *Collaborative Research: Fast Functional MRI*, 2008-2011. Role: Principle Investigator

National Science Foundation, *Multilevel mediation techniques for fMRI*, P.I. Wager, 2007 – 2010. Role: Co-investigator

NIH/NCCAM - R01 Grant, *The neural bases of placebo effects and their relation to regulatory processes*, P.I. Wager 2006-2010. Role: Co-investigator

Gatsby Initiative in Brain Circuitry Pilot Project Grant (Consultant), *Neuroinformatics of expectancy in pain*, P.I. Wager, 2006-2007. Role: Consultant

NIH/NIMH - R24 Grant, *Cognition-Emotion-HPA Interaction: Translational Network*, P.I. Liberzon, 2005 – 2008. Role: Consultant

National Science Foundation, *Statistical Methods in Fast Functional MRI*, P.I. Shepp 2002 –2008. Role: Consultant

ACADEMIC SERVICE

Departmental Service

At Johns Hopkins University:

- Faculty Senate (2013-2014)
- Awards committee (2012-2015)
- Hiring committee (2012)
- Chair of hiring committee (2014, 2015)
- PhD Mentoring:
 - Amanda Mejia (2012-present)
 - Yenny Webb Vargas (2012-present)
 - Yuting Xu (2013-present)
 - Oliver Chen (2014-present)

At Columbia University:

- Ran summer consulting program (2009-2011)
- Helped mentor undergraduate interns in statistics (2010)
- Undergraduate curriculum committee (2009-2010)
- PhD Core Committee (Applied Statistics) (2009-2010)
- Co-organizer of 2009-2010 Special Focus Series: “Statistical methods in Neuroscience”
- Committee in charge of “Applied Statistics” qualifying exam.
- Department Liaison to Summer Session (2008-2011)
- Curriculum committee (2008)
- Junior search committee (2007-2009, 2011)
- A variety of undergraduate curriculum committees – joint major, project webpage, textbook and course design (2004-2008).
- Designed courses "Introduction to Applied Statistics" (2005-2006), "Statistical Methods in functional MRI" (2004-2005) and Applied Regression Analysis (2009-2010)
- Organized departmental seminar (2003-2004)
- Departmental representative to QMSS program (2002-2004)
- Committee on PhD admissions (2003-2007, 2009)
- PhD Mentoring:
 - Lucy Robinson (2006-2009; Currently at Drexel University)
 - Ivor Cribben (2010-2012; Currently at University of Alberta)

At Rutgers University:

- Graduate student representative (2000-2001)

PRESENTATIONS

Evaluating Dynamic Bivariate Correlations in Resting-state fMRI

- CFE-ERCIM 2013, London, UK, December 2015.
- Human Brain Mapping, Honolulu, HI. June 2015.

New Approaches towards High-dimensional Mediation

- Department of Statistics, University of Warwick. December 2015.
- Statistical Methods in Imaging Conference, Ann Arbor, MI, May 2015.

Statistical Analysis of fMRI Data

- Prevention Science and Methodology Group (PSMG) Webinar. September 2015.

An fMRI-Based Neurologic Signature for Physical Pain

- Department of Psychology, University of California Berkeley. September 2015.

Principles of Functional Neuroimaging Data

- Opening Workshop for ‘SAMSI Program on Neuroimaging Data Analysis’, Research Triangle Park, NC. August 2015.

Statistical Analysis of Neuroimaging Data

- Joint Statistical Meetings, Seattle, WA. August 2015.

Discussant in session on Neurostatistics

- 60th World Statistics Congress – ISI2015, Rio De Janeiro, Brazil. July 2015

The Statistical Analysis of fMRI Data

- Eastern North American Region/International Biometric Society, Webinar, June 2015.

Causal inference in fMRI analysis – and beyond

- Educational course in Advanced fMRI, Human Brain Mapping, Honolulu, HI. June 2015.

Exploration, Confirmation, Algorithm, and Model

- Educational course in Reproducible Neuroimaging, Human Brain Mapping, Honolulu, HI. June 2015.

Evaluating the Reproducibility of Dynamic Connectivity in fMRI

- International Symposium on Biomedical Imaging, New York, NY. April 2015

New Directions in fMRI Data Analysis

- Joint Statistical Meetings, Seattle, WA. August 2015.
- Eastern North American Region/International Biometric Society, Miami, FL 2015

Evaluating Dynamic Correlations in fMRI

- NIH, April 2015
- Joint Statistical Meetings, Boston. August 2014.

Recent Developments in Statistical Modeling of Brain Imaging Data

- International Biometrics Society, Florence, Italy, July 2014

Presentations (continued)

Modeling Change Points in fMRI: Activation and Dynamic Connectivity

- Educational course in Advanced fMRI, Human Brain Mapping, Hamburg, Germany. June 2014.

From CT to fMRI: Larry Shepp's Impact on Medical Imaging

- 20th Applied Probability Day: In Honor/Memory of Larry Shepp, Columbia University, New York, NY, 2014.

Functional Causal Mediation Analysis with an application to Brain Connectivity

- Department of Politics, Princeton University, Princeton, NJ, February 2015.
- Department of Biostatistics, Brown University, Providence, RI, October, 2014.
- Frontiers in Applied and Computational Mathematics, Newark, New Jersey, May 2014.
- Keynote speaker at 'Statistics Day at MUSC', Charleston, SC, September 2013.
- SRCOS, Montgomery Bell State Park, TN, June 2013.
- Department of Mathematics, DePaul University, Chicago, IL, May 2013.
- Department of Biostatistics, Vanderbilt University, Nashville, TN, April 2013.
- Department of Biostatistics, University of North Carolina, Chapel Hill, NC, February 2013.

Developing fMRI-based Biomarkers for Pain

- Lieber Institute, Baltimore, MD, September 2014.
- CFE-ERCIM 2013, London, UK, December 2013.
- American Society of Neurorehabilitation, San Diego, November 2013.
- BRIC, University of North Carolina, Chapel Hill, NC, February 2013.
- Joint Statistical Meetings, San Diego. August 2012.
- ICSA Applied Statistics Symposium, Boston, MA 2012.
- Eastern North American Region/International Biometric Society, Washington, DC 2012

Ignite Talk

- BrainHack 2013, Paris, France, October 2013.

Functional Data Analysis for fMRI

- Joint Statistical Meetings, Montreal, Canada. August 2013.
- Eastern North American Region/International Biometric Society, Orlando, FL 2013

Efficient Modeling of fMRI Data Avoiding Misspecification, Bias and Power Loss

- Educational course in How Not to Analyze Your Data: A Skeptical Introduction to Modeling Methods, Human Brain Mapping, Beijing, China. June 2012.

Brain Connectivity and Causal Inference

- SAMSI, Neuroimaging Data Analysis Workshop, June 2013
- Keynote speaker at Workshop on Machine Learning and Interpretation in NeuroImaging, Lake Tahoe, NV. December 2012.
- Eastern North American Region/International Biometric Society, Miami, FL 2011

Discussant - Statistical Issues in Modeling fMRI Data

- Joint Statistical Meetings, San Diego. August 2012.

Presentations (continued)

The Statistical Analysis of Ultra Fast fMRI Data

- Educational course in Advanced fMRI, Human Brain Mapping, Beijing, China. June 2012.

Functional Connectivity, Effective Connectivity and Causality

- Educational course in Advanced fMRI, Human Brain Mapping, Beijing, China. June 2012.

Connectivity and Causality in Brain Imaging

- Joint Statistical Meetings, Miami. August 2011.

Multiple Comparisons in fMRI

- The UCLA Advanced Neuroimaging Summer program, July 2011

The Network of Network Methods, and a Case Study of SEM

- Human Brain Mapping, Quebec City, Canada. June 2011.

Statistical Approaches for Studying Causality

- Educational course in Advanced fMRI, Human Brain Mapping, Quebec City. June 2011.

Functional Data Analysis, Causal Inference and Brain Connectivity

- Department of Statistical Science, Duke University, Durham NC. September 2012
- Department of Statistics, Linköpings Universitet, Linköping, Sweden. May 2012.
- Department of Statistics, University of Virginia, Charlottesville, VA. February 2012.
- Department of Statistical Science, Cornell University, Ithaca, NY. April 2011.
- Department of Biostatistics, Emory University, Atlanta, GA. January 2011.
- Department of Biostatistics, Johns Hopkins University, Baltimore, MD. October 2010.

Tutorial in Image Analysis

- Opening Workshop for ‘SAMSI Program on Analysis of Object Data’, Research Triangle Park, NC. September 2010.

The statistical analysis of pharmacological fMRI data - with an application to a study of expectancy-based enhancement of opioid analgesia

- Joint Statistical Meetings, Vancouver, Canada. August 2010.

Bayesian Analysis in fMRI

- The UCLA Advanced Neuroimaging Summer program, July 2015
- The UCLA Advanced Neuroimaging Summer program, July 2014
- The UCLA Advanced Neuroimaging Summer program, July 2013
- The UCLA Advanced Neuroimaging Summer program, July 2012
- The UCLA Advanced Neuroimaging Summer program, July 2011
- The UCLA Advanced Neuroimaging Summer program, July 2010

Presentations (continued)

Non-parametric Analysis in fMRI

- The UCLA Advanced Neuroimaging Summer program, July 2015
- The UCLA Advanced Neuroimaging Summer program, July 2014
- The UCLA Advanced Neuroimaging Summer program, July 2013
- The UCLA Advanced Neuroimaging Summer program, July 2012
- The UCLA Advanced Neuroimaging Summer program, July 2011
- The UCLA Advanced Neuroimaging Summer program, July 2010

Functional Data Analysis, Causal Inference and Brain Connectivity

- International Conference on Statistics and Society, Beijing, China. July 2010.
- Keynote speaker at the Network of Greater Georgia Institutes of Neuroimaging and Statistics, University of Georgia, Athens, GA. April 2010.

Modeling Neuroimaging Data – avoiding misspecification, bias and power loss

- Human Brain Mapping, Barcelona, Spain. June 2010.

Hierarchical linear modeling of fMRI activity

- Educational course in Advanced fMRI, Human Brain Mapping, Barcelona, Spain. June 2010.

Analyzing High Temporal Resolution fMRI data

- Columbia-Techion Workshop on Neuroengineering of Biological Networks, New York, NY. March 2010.
- Department of Biostatistics, Brown University, Providence, RI, February 2010.
- School of Mathematical and Statistical Sciences, Arizona State University, Tempe, AZ. December 2009.
- Neuroimaging Analysis Methods Group, Princeton University, Princeton, NJ. October 2009.
- Computational Biology Center, IBM T.J. Watson Research Center, Yorktown Heights, NY. September 2009.
- Cognitive Neuroscience Division, Columbia University Medical Center, New York, NY. November 2008.
- Eastern North American Region/International Biometric Society, Arlington, Virginia 2008
- Department of Biostatistics, Johns Hopkins University, Baltimore, MD. September 2008.

Modeling Brain Pathways Using Functional Path Analysis

- Joint Statistical Meeting, Washington DC. August 2009.

Multilevel modeling of BOLD activity for functional studies

- Educational course in Advanced fMRI, Human Brain Mapping, San Fransisco, CA. June 2009.

Analyzing fMRI data with unknown brain activation profiles

- Eastern North American Region/International Biometric Society, San Antonio Texas 2009

Modeling fMRI data with uncertain hemodynamic response or stimulus functions

- Summer School: Mathematics in Brain Imaging, Institute for Pure & Applied Mathematics, UCLA, Los Angeles, CA, July 2008

Presentations (continued)

Multilevel Linear Modeling: Within-and Between-Subjects Modeling of fMRI Time Series

- Educational course in Advanced fMRI, Human Brain Mapping, Melbourne, Australia. June 2008.

Understanding fMRI Data: From Acquisition to Analysis

- Child Psychiatry Fellowship Seminar, Columbia University, New York, NY. September 2008.

Logistic Regression with fMRI Time Series Predictors

- Joint Statistical Meeting, Denver, WA. August 2008.

Analyzing fMRI Data with Unknown Brain Activation Profiles

- Division of Biostatistics, New York State Psychiatric Institute, New York, NY. March 2009
- Merck, Rahway, NJ. June 2008.

Efficient Modeling of fMRI Data -Basis Sets & Model Diagnostics

- Merck, Rahway, NJ. June 2008.

Estimating distributions of onset times and durations from multi-subject fMRI studies

- Human Brain Mapping, Melbourne, Australia. June 2008.

The Acquisition and Statistical Analysis of High Temporal Resolution 3D fMRI Data

- Joint Statistical Meeting, Salt Lake City, Utah. August 2007.
- Neuroscience Research Institute (NRI), Gachon University of Medicine and Science, Incheon, Korea. August 2007.

Rapid 3D functional MRI

- fMRI Research Center, Columbia University, New York, NY. March 2007.
- New York Psychiatric Institute, Columbia University, New York, NY. November 2006.
- Merck, Rahway, NJ. November 2006.

Modeling State-Related fMRI Activity using Change-point Theory

- Merck, Rahway, NJ. November 2006.
- Joint Statistical Meeting, Seattle, WA. August 2006.

Rapid 3D fMRI of the Hemodynamic Response Function

- Department of Psychology, Columbia University, NY, NY. October 2006

Negative Dip Imaging in Bold fMRI

- Department of Statistics, Rutgers University, New Brunswick, NJ. May 2006.

Real-Time functional MRI

- Department of Statistics, Syracuse University, Syracuse, NY. October 2005.

Statistical Methods for Fast Functional MRI

- Department of Mathematics and Statistics, Boston University, Boston, MA. April 2004
- New York State Psychiatric Institute, Columbia University, New York, NY. February 2004

Presentations (continued)

Mathematical and Statistical Problems Relating to fMRI

- Department of Statistics, University of Michigan, Ann Arbor, MI. February 2002.
- Department of Statistics, Columbia University, New York, NY. February 2002.
- Department of Statistics, University of Minnesota, Minneapolis, MN. February 2002.
- Department of Statistics, Purdue University, Lafayette, IN. January 2002.

Two Statistical Applications Yielding Basic Insights into Math (*Jointly presented with L. Shepp*)

- Department of Statistics, Stanford University, Palo Alto, CA. July 2001.

Fast Functional MRI Using Two-Dimensional Prolate Spheroidal Wavefunctions

- Center for Magnetic Resonance Research, University of Minnesota, Minneapolis, MN. June 2001.
- Brain Program, Brown University, Providence, RI. June 2001. A Super-Fast Negative Dip is Needed for Higher Cognition (Jointly presented with L. Shepp) Department of Radiology, Stanford University, Palo Alto, CA. August 2000.

From Emission Tomography to fMRI (Jointly presented with L. Shepp)

- Department of Statistics, Stanford University, Palo Alto, CA. July 2000.

Non-Homogenous Type II Counter Models for the Release of Neurotransmitters

- Department of Statistics, Royal Institute of Technology, Stockholm, Sweden. February 1997.

ADDITIONAL INFORMATION

- Married, two children (10 and 12 years old)
- Swedish citizenship
- Permanent U.S. Resident.
- Languages: Native Swedish and English. Basic French.
