

## Table of Contents for Ingo's Notes

---

Chapter 01: Introduction

Chapter 02: Review of linear algebra and matrices

Chapter 03: Random vectors

Chapter 04: The multivariate normal distribution and distributions of quadratic forms

Chapter 05: Least squares estimation

Chapter 06: Properties of least squares estimates

Chapter 07: Design matrices of less than full rank

Chapter 08: Orthogonal structure in the design matrix

Chapter 09: Generalized least squares

Chapter 10: Estimable functions

Chapter 11: Hypothesis testing

Chapter 12: Simultaneous confidence intervals

Chapter 13: Effects of departures from assumptions

Chapter 14: Residuals and influence

Chapter 15: Introduction to design and analysis of experiments

Chapter 16: One-way analysis of variance

Chapter 17: Nested and higher order designs

Chapter 18: Some more miscellaneous ANOVA topics
