Dear Colleagues,

Hope this email finds you well, and you have had a great start for 2014! I wish to seek your assistance in recruiting postdoctoral fellows for a training program that I have been directing for the past decade and that has been funded by the National Institute of Mental Health for four decades. The program offers great flexibility for a doctoral student in statistics, biostatistics, or a related area to pursue a research career. A major restriction is that the candidates must be U.S. citizens or permanent residents. The positions start from any time between now and the end of June 2014. I would be most grateful if you could pass this information to anyone who may be interested in this fellowship.

Thank you so much!

Heping
