• While waiting to get your shell converted to bash
  
  echo "exec bash" >> ~/.login
  
is a temporary fix

• Secure shell
  
  ssh athena.biostat.jhsph.edu
  ssh biopile.mmi.jhsph.edu

• if you have an X server on the machine you’re running, ssh will forward the graphics

• Secure ftp
  
  sftp athena.biostat.jhsph.edu
  
  use get and put to get and put files
