National Institute of Allergy and Infectious Diseases
Biostatistics Research Branch

The Biostatistics Research Branch at the National Institute of Allergy and Infectious Diseases is seeking candidates with a Ph.D. in Statistics or Biostatistics. Statisticians in the group have three main functions: conducting independent research on statistical methodology, oversight of large collaborative medical studies, and collaborations with individual research teams. Collaborative opportunities are broad and include bio-defense, COVID-19, HIV/AIDS, immunology, transplantation, vaccine development, overseas work on emerging pathogens, observational studies, and bioinformatics. Applicants should send their resume and three references to

Dean Follmann, Chief BRB at dean.follmann@nih.gov
