

We are reaching out because the National Institute of Drug Abuse (NIDA) recently published the funding opportunity, *“Leveraging Artificial Intelligence (AI) tools for Substance Use Disorders (SUD) drug discovery and development”*. The non-dilutive funding is provided via the Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) funding programs. Funding ranges between \$150K and \$2.8M:

RFA-DA-22-019 Small Business Innovation Research (SBIR) 43/R44

- <https://grants.nih.gov/grants/guide/rfa-files/RFA-DA-22-019.html>

RFA-DA-22-021 Small Business Technology Transfer (STTR) R41/R42

- <https://grants.nih.gov/grants/guide/rfa-files/RFA-DA-22-021.html>

Application Due Date: August 10, 2021

We are looking to foster research utilizing artificial intelligence tools in Substance Use Disorder (SUD) drug discovery and development. This is a single submission date funding opportunity.

For more general information about the NIH and NIDA small business grant process, please see the following website: <https://sbir.nih.gov/nida/funding-opportunities>.

Please let us know if the team is interested or can make a referral to companies within your research network that you can partner with. We are happy to jump on a call and provide guidance.

Kind regards,

Office of Translational Initiatives and Program Innovations
