Clinical (Teaching) Assistant Professor - Biostatistics
UNIVERSITY OF ILLINOIS CHICAGO

The Division of Epidemiology and Biostatistics at the University of Illinois Chicago (UIC), School of Public Health invites applicants for multiple non-tenure track Clinical (Teaching) Assistant Professor of Biostatistics positions. These full-time positions will begin in August 2023 and primarily entail the teaching of biostatistics courses to graduate students in biostatistics, public health, and other health sciences. Additional duties consist of advising graduate level biostatistics students, engaging in service activities, and the potential for research collaboration. Clinical faculty are valued members of our division and school community and play integral roles in mentoring, curriculum development and design, as well as classroom instruction. Clinical faculty receive mentoring for career development, have opportunities for methodological and collaborative research and have opportunities for promotion.

Essential Functions
• Teaching biostatistics courses in-person and online
• Advising biostatistics Master’s students
• Engaging in service activities

Required Qualifications
• Doctoral degree in biostatistics, statistics, or related area by the start date

Preferred Qualifications
• Experience in relevant teaching or demonstrated teaching potential
• Teaching experience in statistical data science and machine learning courses
• Candidates who can contribute to teaching in the MS Biostatistics- Health Analytics concentration https://catalog.uic.edu/gcat/colleges-schools/public-health/biostatistics/ms/ .
• Experience in biostatistics student mentoring, and program development

UIC is among the nation’s preeminent urban public research universities, an R1 (very high research activity) Carnegie-classification ranked university, the largest university in Chicago, comprising of one of the most diverse student bodies in the nation and is designated as a Minority Serving Institution (MSI), an Asian American and Native American Pacific Islander Serving Institution (AANAPSI) and a Hispanic Serving Institution (HSI). Through its 16 colleges, UIC produces nationally and internationally recognized multidisciplinary academic programs and recent “Best Colleges” rankings published by U.S. News & World Report, found UIC climbed up in its rankings among top public schools in the nation and among all national universities.

The UIC School of Public Health is ranked among the top 20 schools of public health, is in the heart of the Illinois Medical District and is fully accredited by the Council on Education for Public Health. The Division of Epidemiology and Biostatistics has faculty members spanning the two disciplines of biostatistics and epidemiology and is truly interdisciplinary. The Biostatistics section within the Division consists of nine full time faculty and several adjuncts and affiliates and serves students in PhD program in Biostatistics, MS program in Biostatistics, MS Biostatistics – Health Analytics, MPH programs and provides introductory level instruction to the larger group of public health students. Biostatistics faculty engage in cutting-edge methodological and
interdisciplinary collaborative research. Our program embraces diversity and inclusion across multiple dimensions consistent with the UIC SPH mission and values. We strongly encourage applications from candidates who will help us expand the perspectives and experiences we bring to our work.

Application Process: The application process requires submission of a cover letter describing relevant experience and goals, a curriculum vitae, a teaching statement, other relevant documents (such as student course evaluations), and three references (names, titles, phone numbers and e-mail addresses). For fullest consideration apply by April 21, 2023 when review of applications will commence and the search will close on May 12, 2023. For further information, please contact Dr. Sanjib Basu (sbasu@uic.edu).
